**ORGANIC
COTTON / JUTE BAGS**

MANUFACTURER & EXPORTER

Promotion- und Werbetaschen sind als Markenbotschafter eines der wenigen wirklich nützlichen und umweltschonenden Werbemittel. Sie überzeugen durch Beständigkeit und einen damit verbundenen langen Werbeeffect, der bei günstiger Anschaffung für einen geringen TKP (Tausend-Kontakt-Preis) sorgt.

Schon längst folgen Verbraucher dem aktuellen Trend und machen ihre Kaufentscheidungen davon abhängig wie nachhaltig Produkte produziert worden sind.

Ziel unseres Engagements ist es, unseren Kunden ein ökologisch, ökonomisch und sozial verantwortungsvoll angebautes und hergestelltes Produkt anzubieten.

Das ist uns ein Herzensanliegen.

Promotion and advertising bags, as brand ambassadors, are one of the few really useful and environmentally friendly advertising media. They stand out due to their durability and their associated long-term promotional effect, which, together with economical sourcing, accounts for a low CPM (cost per thousand views).

For a long time now, consumers have been following the current trend, and make their purchasing decisions according to how sustainably products have been produced.

The aim of our endeavour, is to offer our clients a product that is made and put together in an environmentally friendly, economical and socially responsible fashion.

This is something that lies close to our hearts.

SYNCOTEX

BAGS

Hochwertige Taschen aus nachhaltiger Produktion. Unser Ziel ist es, eine Balance zwischen wirtschaftlichem Erfolg, Schutz der Umwelt und gesellschaftlicher Verantwortung zu erreichen. Wir sind überzeugt, dass nachhaltiges Handeln eine Grundvoraussetzung für den wirtschaftlichen Erfolg eines Unternehmens ist.

High quality bags produced sustainably. Our aim is to achieve a balance between commercial success, protection of the environment and corporate responsibility. We are convinced that sustainable action is a basic requirement for a company's commercial success.

100% ÖKOLOGISCH

Engagement für den Umweltschutz beginnt bei einem selbst. Daher sind alle unsere Arbeitsplätze bereits umwelt-freundlich eingerichtet. Syncotex setzt ausschließlich 100% Öko-Strom in der eigenen Zentrale und Inhouse-Druckerei ein. Durch die zusätzliche Lagerung der Produkte vor Ort, haben wir extrem kurze Transportwege. Zudem verwenden wir neben klimaneutralen Toner für alle Druck- und Kopier-systeme auch firmeneigene Elektroautos. So verbessert sich die CO2-Bilanz schon im alltäglichen Geschäft.

100% ENVIRONMENTALLY FRIENDLY

Commitment to environmental protection begins with oneself. Therefore, all of our workspaces are already set up to be environmentally friendly. Syncotex uses only 100% renewable energy at its own headquarters and in-house print works. In addition, by storing products on site, we have extremely short transport distances. Alongside carbon neutral toner for all print and copy systems, our company also has its own electric vehicles. This improves the CO2 balance, even in everyday business.

QUALITÄT DIE ÜBERZEUGT

Syncotex ist nicht nur fairer als jede konventionelle Werbetasche, unsere Produkte sind auch qualitativ hochwertiger. Dies können wir stolz behaupten, da die Materialauswahl für unsere Taschen, dem höchsten Qualitätsstandard für Taschen gleicht. Durch unsere gleichbleibend hohen Produktions- und Verarbeitungsstandards, erzielen wir für jede Charge ein optimales Qualitätsniveau. Durch eine engere Webung der einzelnen Baumwollfasern, wird das Druckergebnis deutlich brillanter, als bei einem konventionellen Taschendruck.

IMPRESSIVE QUALITY

Syncotex is not just fairer than any conventional promotional bag, our products are also of a much higher quality. We can say so proudly, since the materials chosen for our bags meet the best quality standards. Due to our consistently high production and processing standards, we achieve an equally high level of quality with every batch. By weaving individual cotton fibers more tightly, the print result is significantly brighter than with conventional bag printing.

JETZT PARTNER WERDEN

Werden Sie Partner von Syncotex und profitieren Sie von einem ganzheitlichen und nachhaltigen Konzept, welches Sie in Ihre eigene externe Unternehmenskommunikation einbinden können. Jeder gewonnene Partner bedeutet, dass ein konventionelles Produkt auf dem Markt durch ein Produkt ersetzt wird, durch das Kleinbauernorganisationen in den Entwicklungsländern profitieren.

BECOME A PARTNER NOW

Become a partner of Syncotex, and profit from a holistic, sustainable concept, which you can integrate into your own external company communications. Every partner gained means that a conventional product on the market is replaced by a product that benefits smallholder organisations in developing countries.

BAG-STREET BOY!

SYNCOTEX

Baumwolltaschen sind eher Oldtimer als Newco – trotzdem feiern sie ein großes Comeback! Als Werbemittel und inzwischen auch als hippestes Modeaccessoire.

Backstreet's bag, alright!

Cotton bags are more like old-timers than newcomers. Nevertheless they are celebrating a big come-back! Both as an advertising medium and, meanwhile, as a hip fashion accessory.

The backstreet bag's back, alright!

Overlocknaht nennt man die sauber vernähten Säume im Inneren einer Tasche. Die Naht verhindert das Aufribbeln und Ausfransen des Gewebes beim Gebrauch der Tasche. MisterBags® Baumwolltaschen sind zudem maschinenwaschbar bis 30°C.

Overlock seams are what the neatly-sewn seams inside a bag are called. This type of join stops the fabric ribbing and fraying when the bag is used. MisterBags® cotton bags are also machine washable up to 30°C.

FOOD BAGS

Ganz einfach einen Teil zur Plastikmüll-Reduzierung bei-tragen: Mit den langlebigen, wiederverwendbaren und waschbaren Food Bags werden die üblichen Einwegtü-ten für Obst und Gemüse nie wieder benötigt.

Quite simply, make a contribution to the reduction of plastic waste: With these durable, reusable and washable food Bags, the usual single-use carriers for fruit and vegetables are no longer necessary.

Reduzierung von Plastikmüll

Trage ganz einfach deinen Teil zur Plastikmüll-Reduzierung bei, indem du bei jedem Einkauf den wiederverwendbaren Beutel benutzt. Die langlebigen und waschbaren Food Bags sind die Alternative zu den üblichen Einwegtüten.

Reduce plastic waste

Playing your part in reducing plastic waste is easy when you use this re-usable bag every time you make a purchase. These durable and washable food bags are the alternative to standard disposable carrier bags.
